

Primary Replacement Oil Pressure/Temperature Instrument

OPT-1 Overview

Display

Electronics International's OPT-1 displays Oil Pressure and Temperature on a crisp, large, backlit LCD. Select between Temperature and Pressure with the throw of a toggle switch, or monitor both functions on the quick reference 90 degree analog LED displays.

Pressure and Temp Warnings

Redlines and cautionary zones will definitely catch your attention as corresponding Red or Yellow LED's light up on the analog arcs.

Certification

The OPT-1 is a Primary Replacement, FAA STC'd, TSO'd instrument.
